

ENVIRONMENTAL POLICY

Haines Construction (Southern) Ltd recognizes that it has a responsibility to protect the environment in which it operates. We are committed to managing our business activities in such a manner as to avoid or minimize any detrimental effects on the environment.

This policy applies to all our operations including management, office services, site operations and procurement.

Haines Construction (Southern) Ltd aims to improve its environmental performance by:

- Complying with the requirements of all environmental legislation
- Raise awareness of environmental issues within our company and provide the necessary information, instruction, supervision and training to all our employees.
- Ensure that all employees co-operate with management to ensure the compliance with the company Environmental Policy.
- Work with our suppliers and contractors to improve environmental performance
- Use of technology to manage and monitor vehicle use.
- Ensuring that all vehicles and plant are regularly maintained to ensure their efficiency
- Meet our duty of care requirements in relation to waste by ensuring the safe keeping, transportation and disposal of waste
- Manage waste through the careful and efficient use of materials and energy.
- Purchase sustainable products wherever feasible (i.e. recycled, FSC,)
- Avoid the use of hazardous substances
- Use of recycled construction materials where appropriate.
- Implementation of efficient control measures to prevent and reduce pollution (i.e. noise & dust)
- Reduce paper usage by increasing the use of e-mail and electronic documentation
- Monitor progress and review performance annually.

Through the effective delivery of our business activities within the framework of this policy, Haines Construction (Southern) Ltd will develop sustainable practices and deliver a meaningful contribution to the quality of our environment.

Signed on behalf of **Haines Construction (Southern) Limited**.

Kevan Haines
Managing Director
